Dear Mr. Hallett:

I want to express my personal thanks and appreciation for the assistance you provided our Special Agents during the investigation known as Project Spectre.

Although you were not involved in this case during its initial stages, you took over coordinating your agency's part by participating in trial preparations and handling liaison with the Department of the Treasury and the Social Security Administration. Your assistance was invaluable and greatly contributed to the indictment and subsequent conviction of 49 individuals. My colleagues appreciate the excellent working relationship that exists between the FBI and your office and look forward to continuing that cooperative spirit in the future.

Sincerely yours,

William H. Webster
